Super Shape Creations!

One imaginative adventure. Three flexible levels.

RECEPTION

My Shape Creation!

Draw a picture using circles, squares, triangles, rectangles and ovals. Maybe create an animal, a rocket, a house or something completely different? See how many things you can create. If you need a new shape, make one up!

EYFS · Mathematics — exploring and combining shapes; Expressive Arts and Design — imaginative drawing.

YEAR 1

My Shape Surprise!

Create an imaginative picture using the five different shapes. Invent a new shape of your own and include it in your creation. Give your creation a name and write a sentence describing it.

KS1 · Mathematics — recognising 2D shapes; Art and Design — creative ideas; English — sentence composition.

YEAR 2

The Shape Inventor!

Create something extraordinary using all five shapes from the story. Invent at least two new shapes and give them names. Include them in your creation and write a short description explaining what you have created and why you needed your new shapes.

KS1 · Mathematics — exploring shape properties; Art and Design — designing; English — explanatory writing.
